CHAPTER 3: CLI

Show all lines of a file except the last 5:

head -n -5 NEC.txt

Find every file bigger than x MB under your home folder:

find ~ -type f -sipe +50M

Show the 10 largest files in /var/log, sorted by sipe:

find /var/log -type f -exec du -h {} + | sort -hr | head -n 1

0

Count how many ~~jgp~~ jpg files ~~exist~~ exist under the current folder:

find . -type f -iname "*.jpg" | wc -l

Count the words in a file:

wc -w diwalikw.txt

Show the top 5 memory-hungry processes:

ps aux --sort=-%mem | head -n 6

(Note: head -n 6 includes the header line plus the top 5 processes).

Find the last 5 commands you ran that contain git:

```
history | grep "git" | tail -n 5
```
